FIRE INSURANCE IN THE UNITED STATES OF AMERICA.

FIRE insurance interests in this country have been considerably exercised, since the beginning of the war in Europe, over the exact status of foreign companies in the United States, and many carriers of policies in companies domiciled in the warring nations are clearly uneasy as to the effect of the war on their insurance. It may, therefore not be amiss to rehearse for the benefit of *American Underwriter* readers the simple facts of the security afforded by such contracts. To secure a license in this State a foreign fire insurance company is required by law to deposit at least \$200,000 with the Superintendent of Insurance, or with the commissioner of some other State, as a trust fund for the protection of the United States policyholders, and, in addition, the company must also deposit approved securities of a prescribed amount to be held under deeds of trust by trustees approved by the Insurance Superintendent as being citizens of this country of standing and character. The funds that are accumulated in the discharge of business are also held under the deeds of trust and cannot be withdrawn by the foreign home office or be used for any other purpose than to meet the proper requirements and obligations of the company as incurred in the United States. In view of the fact that behind the resources of the United States Branches of foreign companies really stand the funds of the home offices, if such are ever required, it is apparent that the security of Americans who rely upon their policies in foreign companies is quite as great as though they were insured in their home companies.

HELP IN CASE OF ACCIDENT

KEEP COOL—SEND FOR A PHYSICIAN

WOUNDS—Remove patient to a quiet, airy place. Have hot and cold water, several basins, clean towels, cloth and soap. Apply antiseptic treatment as follows:

Thoroughly cleanse your own hands and nails; then cleanse the wounds with some antiseptic. The simplest and most easily procured is salt and water. Put a handful of salt in a quart of water and use freely. After the wound is cleansed, it must then be protected from new germs by some covering made germ-free by baking, boiling, or even ironing with a hot flatiron. After the salt solution has been carefully used, apply strips of muslin or gauze soaked in warm water which has been boiled. This will leave the wound in good condition.

If a more active antiseptic than salt, such as Carbolic Acid (1 per cent) or Bichloride of Mercury (1 part to 2000 of water), is available, it should be used.

DROWNING—Turn body face down over a barrel, or grasp it by the middle and raise it so that the water may drain out of the throat, first grasping the tongue with a handkerchief or towel and drawing it forward. Then perform artificial respiration as follows:

Loosen all clothing, exposing neck and chest to the air. Open the mouth, forcing the jaw if necessary. Place a piece of wood between the teeth to prevent patient biting tongue. Grasp tongue with cloth or handkerchief and have an assistant hold it out. Kneel near the head. Grasp the patient's fore-arms firmly as close as possible to the bent elbows.

(1) Firmly press patient's elbows against the sides of his body, driving the air out of the lungs. Count "one."

(2) Raise the arms slowly with a sweeping motion up and around and over head until elbows touch ground, to expand chest. Count "two."

(3) Give the arms a slow, strong pull, raising the chest as high as it will go. Count "three."

(4) Bring the arms with bent elbows down against sides again. Count "four."

Continue this action about fifteen times a minute slowly and steadily. DO NOT GET DISCOURAGED. Continue at least an hour if necessary.

Smelling salts, camphor or ammonia may be held under patient's nose about once a minute by the assistant holding the tongue when he is breathing in and when his arms are extended above his head.

APOPLEXY—STROKE OF PARALYSIS—Loosen the clothing. Apply cold cloths to the head which should be elevated. Keep the body and feet warm. GIVE NO STIMULANTS. Never attempt to give anyone who is unconscious anything to drink as it may choke him.

MAD DOG OR SNAKE BITE—Tie cord tight above wound. Wash the wound well with warm water. If possible, cauterize immediately with Nitrate of Silver (Lunar Caustic); or red hot iron; or enlarge the wound by cutting away the flesh immediately around it. Give whiskey or brandy in large quantities.

FOREIGN BODIES IN EYE—Pull the upper lid downward away from the eyeball over lower lid and release.

BURNS AND SCALDS—Cover with Cooking Soda and lay wet cloths over it. Whites of Eggs and Olive Oil. Olive or Linseed Oil, plain, or mixed with Chalk.

LIGHTNING—Dash cold water over person struck. Artificial respiration as above.

VENOMOUS INSECT'S STINGS, ETC.—Apply weak Ammonia, Oil, Salt Water or Iodine.

FAINTING—Place flat on back; allow fresh air and sprinkle with water.

IN CASE OF POISON.

First. Send for a physician.

Second. Empty the stomach by an emetic—a teaspoonful of mustard or two teaspoonfuls of common salt in tepid water; teaspoonful of alum in water. Tickle the throat with a feather or finger. Apply antidotes as follows:

Poison.	Antidote No.	Poison.	Antidote No.

1. Emetic. If patient is drowsy, give cold coffee; keep awake and moving.

2. Emetic. Warm extremities; give large doses of magnesia; raw eggs; lime water; milk; flour and water.

3. White of eggs, milk, flour and water; give largely for ten minutes, then give emetic and follow by mild stimulants.

4. Mustard emetic followed by Epsom salt.

5. Emetic. Give warm water to relieve vomiting; tea to tablespoonful baking powder, saleratus, chalk, lime or magnesia followed by milk and white of egg.

6. Emetic. Baking powder etc., as in No. 5, followed by linseed tea or slippery elm tea.

7. Emetic. Followed by brandy or by teaspoonful ammonia in pint of water.

8. Large quantities of water followed by large doses magnesia or lime.

9. Drink diluted vinegar or lemon juice, follow with tablespoonful castor oil, cream, sweet oil or linseed oil; then with teaspoonful doses an hour apart for three hours.

10. Fresh air, inhalation of ammonia; warm extremities; artificial breathing, as in drowning.

INTEREST CALCULATIONS.

Rule—Multiply the principal by as many one-hundredths as there are days, and then divide as follows:

Per cent. 4 5 6 7 8 9 10 12
Divide by 90 72 60 52 45 40 36 30

Examples.—Interest on \$100, for 90 days at 5 per cent: $100 \times 90 = 9.00$ divided by $72 = 1.25$ (one dollar and 25 cents): on \$1, for 30 days at 6 per cent: $1 \times 30 = .300$, divided by $60 = .005$ (5 mills).

All parcels must bear the return card of the sender otherwise they will not be accepted for mailing.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions and plants, books (including catalogs), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first second and third classes. Classification excludes matter of a character perishable within a period reasonably required to transport and deliver, and parcels of form and kind likely to injure postal employees or equipment or other mail matter.

C. O. D.—Sender of parcel on which postage is fully prepaid may have price of article and charges thereon collected on payment of 10c additional in stamps affixed, if amount is not over \$100. No extra charge for insurance to amount of \$50.

Fees and conditions.—Fourth-class or domestic parcel post mail (but no other) may be insured against loss upon payment of a fee of 5 cents for value not exceeding \$25, or 10 cents for value not exceeding \$50, in addition to the postage, both to be prepaid with stamps affixed. It may not be registered.

Such mail may be insured at any post office or station thereof, or by rural carriers. The sender must fill out an insurance tag, which will be furnished him on request, to be attached to the parcel.

Return Receipts for Insured Parcels may be obtained by indorsing the parcels "Return receipt desired."

POPULATION OF INCORPORATED PLACES OF UNITED STATES AND TERRITORIES.

* Denotes towns. c Denotes capital of state.

The figures immediately following the name of each state denote the land area, and population of that state.
